About the Music

The first time I heard the original Rhodes electric piano in 1969, it changed my life. My debut album, *CHAKRA SUITE*, introduced its sound to New Age audiences around the world.

It is not a synthesizer, but in essence, a series of tuning forks that are played by the keyboard. It produces the purest tone of any instrument I’ve ever heard. When the new Mark 7 model was unveiled, I immediately placed my order. Eight months later, it arrived just in time for my recording date on 11/11/10.

From the first notes, I was in sonic heaven. A proprietary new reverb setting enhanced the magic. Listen with headphones, and you can literally *feel* the tones moving inside your head. I think you’ll love the result.

Several tracks add tambura, the acoustic entrainment instrument used in the Indian raga tradition.

Benefits of Tuning into Deep Theta

When you're experiencing a glorious sunset or other transcendent moment, you know how good that feels. There's a natural state of entrainment between your brain and heart. You're in the *theta* zone.

In addition to enjoying the album *en toto*, you can access and explore the various 'flavors' that each individual frequency offers for deeper meditation, DNA activation, self-healing, creativity and beyond.

About Aural-Sync™ Brainwave Entrainment

When two closely tuned sonic frequencies are heard simultaneously (ex: 100 cycles per second and 107 cycles per second), your brain 'entrains' to the difference between them. On this album, each track is tuned to a specific frequency in the *theta* range, from 4 to 7 cycles per second (Hz).

The Aural-Sync™ entrainment tones were playing through my headphones as I recorded the main themes on 11/11/10 and 1/04/11 (the anniversary of recording CHAKRA SUITE in 1975). I was aware of a remarkable infusion of inspiration and spiritually uplifting energy in the room. The music flowed freely, phrase after phrase unfolding in the timeless moment. It was truly a gift. It's my honor to share it with you. I invite you to enjoy the live video of several songs at youtube.com/StevenHalpernMusic
